What: Brownfield Basics: Land Reuse for Building Better Communities

Who: All Harrisburg Community Members and Community Leaders

When: August 24, 2017, 4:00 – 6:00 PM

Where: Hamilton Health Center Community Room, Harrisburg, PA

REFRESHMENTS PROVIDED

Learn how you can be a leader that will align the community's needs and vision with land reuse and redevelopment.

Brownfields offer opportunities for communities to clean up old industrial sites (and sites "not-so-industrial"), resolve historic environmental liabilities, and re-position the property for beneficial reuse.

Join nationally recognized speakers from the NJIT TAB on brownfields basics that includes

1. Definition of brownfields;
2. Why there are so many brownfield sites;
3. Overview of the brownfield assessment, remediation, and redevelopment;
4. Examples of brownfields that have been successfully redeveloped;
5. Grant and funding programs
6. Other free assistance to support brownfield-impacted communities.
