My apologies. Attached is the full document.

Prior to me coming onboard in 2021, Harrisburg Habitat was in possession of the above-mentioned property. Due to competing priorities, as well as the lot size we are unable to build on this property at this time. Habitat International has specific size requirements for Habitat homes and we would need the adjacent lot in order to remain in compliance with Habitat International. It is our hope that the redevelopment authority would take this property back until Harrisburg Habitat is able to build and possibly provide us with the adjacent lot. We understand that if another developer wants the property we would need to identify other properties for a potential build. We are hoping to continue this relationship moving forward as we look to build more frequently in our service area.

Appreciatively,
Serina

Good Morning Serina!

Hope you had a great week!

Would you kindly provide a brief description outlining H4H's specific request that HRA take title w/ narrative explaining H4H's reasoning and context? Something I can share with my Board so they have a clear understanding of the situation would be very helpful.

When I opened the attached deed, it had only the first page. If you have a complete copy, please re-send.

Thank You & My Best! - Bryan
