Mr Davis,

It is with great excitement that we share with you "The Gateway Project." This development proposal is in line with both the mission of our organization and the overwhelmingly stated need for an increase in affordable housing within the community of Allison Hill. Garnering support from several local organizations, businesses and residents, our aim to capitalize on the unique zoning classification and space available near the intersection of South 13th and Market Streets at what is now known within the community as "Shadow's Garden."

Having involved City Planner, Geoffrey Knight, from the beginning of our process, we believe our project's objective to create 2-4 commercial spaces and 9 residential units, one being ADA-accessible, not only meets the needs of within the community, but opens up additional opportunities because of the risks we're willing to take in making such a significant investment into the future of Harrisburg. It would be our privilege to serve the residents of Allison Hill by increase the availability of affordable housing while also opening doors for the many individuals within our neighborhood who carry an entrepreneurial spirit and have vision to be part of the much needed economic development as well.

We look forward to partnering with the Harrisburg Redevelopment Authority to promote safety and security for our residents through the addition of quality, affordable housing and new commercial opportunities through The Gateway Project.

Sincerely yours,

Tannon Herman  
Executive Director
